

Control Unit

PA01PS

Features

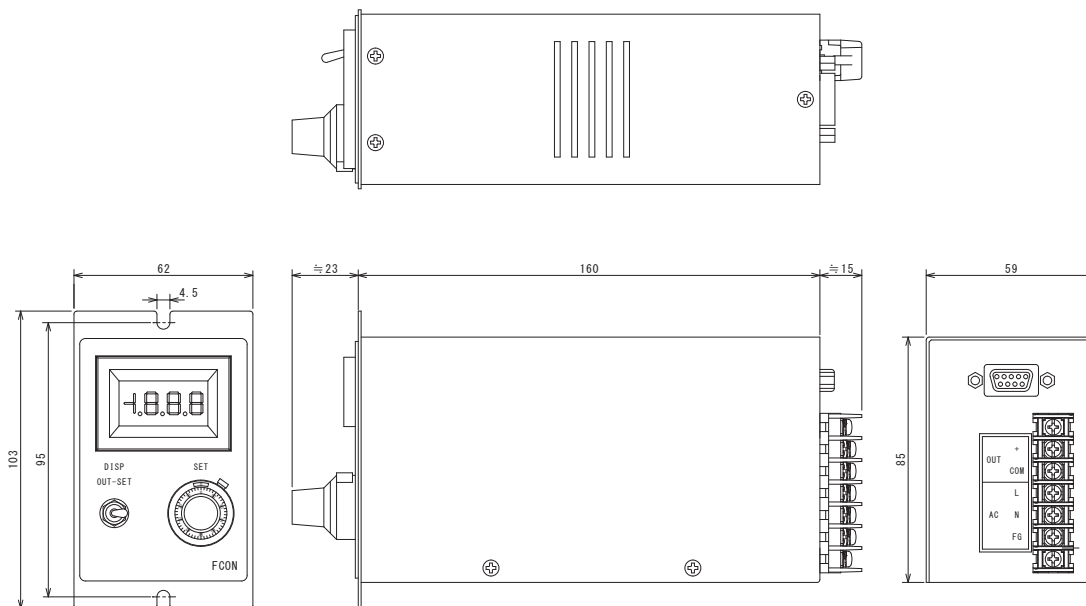

- Cost effective and easy to use
- Compact
- Flow rate display and setting functions
- SET/OUT switching function
- Mass flow power : ± 15 VDC

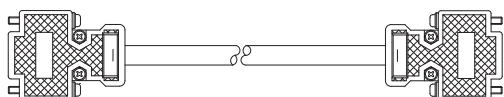

Specification

Model	PA01PS
Mass flow control	10-turn potentiometer
Mass flow power	+15VDC : 300mA, -15VDC : 200mA
Mass flow input/output	0-5VDC
Operating environment	5-50°C (Accuracy guaranteed between 15-35°C), 30-80% RH (No condensation permitted)
Display	Instantaneous flow: 4 digits
Input Power	AC85-264V
Connector	9pin D-sub female

Dimensions

Analog Cables SC0x (Option)

- Communication cable MFC1000 to PA01PS.
- You can order the standard 1 meter, 2 meter, 3 meter length cable.
- Custom-length cable is available.
